To Whom It May Concern:

**Re: RECYCLED CONTENT**

Kennedy Valve is proud to support sustainable building programs and projects. Most of the weight (Ductile Iron Cast Gray Iron or) in Kennedy Valve Products is cast at the Kennedy Valve Plant located in Elmira, New York. Brass parts are cast from 100% post-consumer recycled ingot. Ductile and Gray Iron consists of no less than 80% and 90% post-consumer recycled content respectively.

Post consumer recycled content\* by weight of Kennedy Valve Products, calculated by parts analysis, is as follows (minimum):

Resilient Seated Gate Valves

C-509-RSGV-Gray 90%  
C-509-RSGV-Ductile 82%  
C-515 RSGV-Ductile (2"-12") 82%  
C-515-RSGV-Ductile (14" >) 80%

Fire Hydrants

Guardian K-81 Series 90%

Kennedy Indicator Post

2945A 90%

\* As defined by LEED – New Construction and Major Renovation version 2.2

Thank you for interest in Kennedy Valve Products.

Sincerely,

Kennedy Valve
